

Student Achievement Data - Culinary Arts Program

Students are at the center of Lakeshore Technical College actions. The academic success of students is LTC's highest priority. The college identifies student achievement data as metrics on retention, graduation, job placement, and industry-based credential/licensure attainment.

This data¹ is benchmarked with IPEDS² national data and compared with state data from the 16 colleges making up the Wisconsin Technical College System (WTCS). LTC performs regular review of data during Quality Review Process, which follows [WTCS's "Effective Use of Data Framework"](#) within its review processes.

² The Integrated Postsecondary Education Data System (IPEDS) gathers information from every college, university, and technical and vocational institution that participates in the federal student financial aid programs. LTC reports IPEDS data on enrollments, program completions, graduation rates, faculty and staff, finances, institutional prices, and student financial aid to the US Department of Education's National Center for Education Statistics (NCES).

Job Placement

Job Placement data is based on a study performed on graduates six-months after they graduate from the College. View a full report of the latest survey:
